

TRI-BUILT® CUTTINGEDGE Choice Terpolymer Sealant

TRI-BUILT® CUTTINGEDGE Choice Terpolymer Sealant is based on a terpolymer technology which offers a quality alternative to silicone and urethane sealants. High performance terpolymer elastomers provide exceptional weather resistance, adhesion, elongation and color fade resistance.

- Commercial & Residential Applications
- Available in Clear & 63+ colors to match roofing, windows and siding lines
- Wide range of applications over Single Ply, Metal & Tile Roofing, Vinyl Siding & Windows – see data sheet for additional applications
- Superior Color Retention
- Superior Adhesion to multiple surfaces
- Paintable after skin forms
- Stainable with solid body stains
- Temperate range 0 to 125 degrees
