CUTTINGEDGE®

REPLACEMENT WINDOWS - PRO SERIES

CASEMENT & AWNING WINDOWS

Dressing up your home with European flair has never been so rewarding. With a full 90° sweep, these windows give nature a warm welcome in nice weather. But they work even better at giving bad weather the cold shoulder. Configurations include single, twin, triple and quad with integral or factory mullled options.

CASEMENT & AWNING

TRI-BUILT® CUTTINGEDGE II PRO REPLACEMENT WINDOWS HAVE BEEN GREEN APPROVED BY THE NAHB RESEARCH CENTER.

This means you can be assured that TRI-BUILT® CUTTINGEDGE II PRO Replacement windows comply with specific green practice criteria in the National Green Building Standard.

Visit www.GreenApprovedProducts.com for more details.

1. PG-X glass packages are triple pane insulated glass units with argon. See sidebar above for specific details.
2. Optional frame X-Core insulation available in double hung, sliding, fixed, casement and awning windows.
3. Most awning and operating casement windows meet a Design Pressure (DP) rating of 70 (gateway size of 24" x 60" and most fixed casement windows meet a DP rating of 45).

* Colors are reproduced as accurately as printer technology allows.
Please see your authorized TRI-BUILT® CUTTINGEDGE II representative for actual samples.

STANDARD FEATURES
