## SLIDING PATIO DOORS

Our sliding patio doors are your home's way of welcoming guests with arms wide open. But when heat, cold, rain, wind or intruders come knocking, this beauty is tough as nails. Configurations include two-panel units with optional complementary side lites and transoms.

# SLIDING PATIO DOOR

## STANDARD FEATURES

- New Generation uPVC vinyl never needs painting or caulking and resists conducting heat and cold
- Both the panels and frame are fully welded for superior strength and durability
- Full perimeter, high performance weatherstripping
- Doors come standard with the InsulEdge spacer system which helps keep utility bills down
- Our doors glide on tandem steel rollers which provide smooth and effortless operation, no matter how many times they are opened and closed
- Standard sizes: 5' x 68", 6' x 68" and 8' x 68"
- Side lites and transoms available

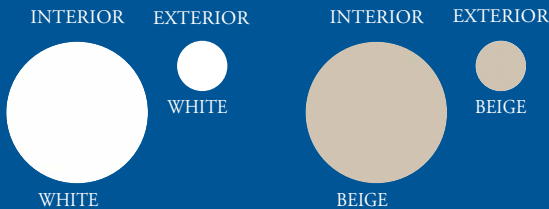

## OPTIONAL FEATURES

- **Glass package options:** Insulated glass unit with one lite of Low-E or Low-E<sup>SC</sup> (solar-cooling) glass and air fill; Performance Glass (PG) insulated glass unit with single lite of Low-E or Low-E<sup>SC</sup> glass with argon gas; PG2-X triple pane unit/2 lites Low-E/argon; PG3-X triple pane unit with two lites of Low-E and one lite of interior surface Low-E glass/argon
- Performance upgrade option: InsulEdge+ nonconductive spacer system; X-Core foam insulation in the frame
- **Screen material options:** Aluminum mesh
- **Additional glass options:** Advanced Easy Clean, tinted, double strength, obscure, glue chip obscure, tempered (transoms), laminated (security), or sound package (off-set glass)
- **Hardware options:** Add the convenience of an easy-to-activate security foot bolt lock that allows you to vent your home while providing peace-of-mind; non-standard handle color options shown below
