

TRI-BUILT® CUTTINGEDGE GUTTER SEAL

TRI-BUILT® CUTTINGEDGE Gutter Seal is a commercial grade adhesive/ sealant designed to seal all types of rain carrying systems. This “terpolymer” formula will penetrate and seal all joints associated with gutters. It is ideal for new installations and repairs over failures of previous sealants. This compound cures to a tough rubbery film that remains flexible in sub-zero temperatures. Full uv protection.

Applications:

- Aluminum, vinyl and metal gutters
- Mitre joints
- Metal assemblies
- Ductwork
- Vent Pipes

Note: Works on copper gutters, but the proper way to seam copper is to solder the joints.

Colors:

- White
- Aluminum
- Clear
- Bronze
